

Come on in, take a seat and browse away

With a coffee in hand ...

Welcome to my world and the abstract territory and terrain of my mind.

Welcome to 2below0.com

2below0.com domain is the web-based creative outlet of Greg Jenkins (graphic design / web design and development / IT Specialist); located in Perth - Western Australia - a little more about me can be found on the 'Profile' page.

This started out as just my portfolio - you can find samples of my works in the 'Portfolio' section. The site has now expanded to included some photos and such like in the 'Images' area. These are free for you to use (under license terms).

There is also a 'Blog' of tips and tricks, how-to's etc - covering a variety of topics (see the first entry in the blog for more details). If you find anything useful (or useless) please send an email.

Cheers

Greg
